

Samagra Swachhata Diwas - Report of ICAR-CTRI (24.09.2017)

The Samagra Swachhata Diwas was celebrated at ICAR-CTRI Black Soil Research Farm, Katheru on 24.09.2017. In spite of heavy rain, about 75-80 staff members have actively participated in this event. Toilets were kept clean with floor cleaners, detergents and disinfectants. Awareness was created among scavengers regarding **'Hygiene and Sanitation'**. Cleaning agents and disinfectants were used for keeping wash rooms & toilets clean and free from bacteria and fungus. Finally the programme was successfully completed by following 'clean and green activity' by all the staff members.
